Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A borrower with multiple loans	Manage my debts and improve my financial health	I cannot easily calculate my debt ratio or repayment capacity	I have limited financial knowledge and no centralized tool	Stressed and financially insecure

PS-2	A borrower seeking loan settlement	Negotiate a better settlement with my lender	I don't know how to prepare a professional negotiation request	I have no experience communicating with financial institutions	Nervous and lacking confidence
PS-3	A borrower facing financial difficulties	Understand my legal rights during loan recovery	I cannot easily access reliable borrower rights information	Financial regulations and recovery procedures are difficult to understand	Confused and worried
