

Project Demo Planning

Date	7 July 2026
Team ID	XXXXXX
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the financial challenges faced by borrowers, and state the project objectives.	2	Team Leader
2	Solution Overview	Explain the system architecture, technologies used, and key modules of the application.	3	Team Member 1
3	User Authentication & Dashboard	Demonstrate user registration, login, dashboard, financial profile, and loan management features.	4	Team Member 2
4	AI Features Demonstration	Demonstrate financial health analysis, settlement prediction, AI negotiation email generation, and borrower rights module.	4	Team Member 3
5	Deployment & GitHub Repository	Show the deployed application, GitHub repository, project documentation, and explain the folder structure.	2	Team Leader
6	Conclusion & Future Enhancements	Summarize the project, discuss future improvements, and answer audience questions.	2	Entire Team

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the motivation behind developing the AI Powered Debt Relief & Financial Recovery Platform and the problems it addresses.
2	Solution Overview	Present the technology stack, system architecture, database, and workflow of the application.

3	Live Feature Demonstration	Demonstrate registration, login, dashboard, loan management, financial health analysis, AI settlement prediction, negotiation email generation, borrower rights, and history modules.
4	Q&A Session	Answer questions from evaluators, explain implementation decisions, deployment, testing, and future enhancements.
