

FinRelief AI – AI Powered Debt Relief & Financial Recovery Platform

2. Requirement Analysis

Introduction

This document describes the functional and non-functional requirements for the FinRelief AI platform.

Functional Requirements

- User Registration and Login
- JWT Authentication
- Financial Profile Management
- Loan Management (Add, Update, Delete, View)
- Financial Health Analysis
- Settlement Prediction
- AI Negotiation Email Generation
- Borrower Rights Module
- History Module

Non-Functional Requirements

- Secure authentication
- Responsive user interface
- Fast API response time
- Reliable error handling
- Scalable architecture
- Easy maintenance

Software Requirements

Operating System: Windows 10/11
Frontend: React.js, Vite, HTML, CSS, JavaScript
Backend: FastAPI, Python
Database: SQLite
Version Control: Git & GitHub
IDE: Visual Studio Code

Hardware Requirements

Processor: Intel Core i3/i5 or equivalent
RAM: 8 GB or higher
Storage: 256 GB SSD or higher
Internet connection for development and deployment

User Requirements

The system should allow borrowers to securely manage financial information, monitor loan details, receive settlement recommendations, generate negotiation emails, and understand borrower rights through a simple and responsive interface.
