Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	owner (User)
Rectangle with numbered header	Process	User Authentication Functions • Register User • Login User • Validate Credentials • Generate JWT Token
Rectangle (solid fill, no number)	Data Store	User Database Stores • User Name • Email • Password • Authentication Details

Labeled arrow	Data Flow	Borrower → Process 1 - Registration Details - Login Credentials Process 1 → User Database - User Information User Database → Process 1 - Authentication Result Process 1 → Process 2 - Authenticated User
---------------	-----------	--

Example

The diagram above illustrates how the symbols above come together to form a complete data flow diagram.
